July 3, 2009

John Clark, Director, U.S. Marshals Service  
Office of the Director  
Washington, DC 20530-1000

Dear Director Clark,

This letter was written after Acting Chief Taylor and Deputy Hodgkins referred our complaint to the USDC Chief Judge Wolf with full knowledge that Chief Judge Wolf had admitted to crimes in our Complaint's Exhibit A, Affidavit of Truth, and knowledge that we had pleaded for his help several times earlier – which he refused to answer. Their referral violated their oath to “protect the judicial process” in US Courthouses.

We are writing to plead for your personal attention to a grave matter involving the U.S. Courthouse/Boston, which openly operates as a criminal enterprise where judges, court personnel and attorneys illegally alter dockets and transcripts to usurp the judicial process, unlawfully dismiss cases and overthrow the Constitution by ending civil redress. These criminal acts are occurring with the full knowledge and cooperation of Acting Chief David Taylor and Deputy Marshal Alison Hodgkins. Attached please find our letter to them and Deputy Hodgkins' arrogant response letter.

Please notice that Deputy Hodgkins and Acting Chief Taylor could not deny the Exhibits of the enclosed Complaint prove on their face that the case docket and transcript are altered. Acting Chief Taylor and Deputy Hodgkins violated their agency mandate to exercise jurisdictional authority over crimes in the U.S. Courthouse that usurp the judicial process, and referred our complaint to USDC Chief Judge Mark L. Wolf despite knowing that before we turned to the Marshals Service for help we submitted several pleas for Chief Judge Wolf's help - only to be ignored, and that Exhibit A of the Complaint proved that a notary public gave Chief Judge Wolf, Judge Zobel and five clerks three legal opportunities to supply evidence to the notary that would counter the Affidavit's statements that detail their crimes, but could not. The Exhibits clearly detail that we are victims of over thirty (30) man-made floods that have devastated our homes, businesses and health caused by a commercial development racketeering scheme that used fraudulent drainage system maps to plunder state and federal funds to overdevelop our area of Malden, MA. The undersigned has been driven out of business into bankruptcy and foreclosure as well as suffered \$35,000.00 in dental trauma and been awarded disability status by SSI Disability due to falls suffered while fighting these floods – all coalition members have suffered greatly.

Acting Chief Marshal Taylor and Deputy Hodgkins have received ample proof that Chief Judge Wolf and his USDC Judges operate a criminal enterprise in the U.S. Courthouse that for over two years has refused to correct the case docket and transcript or allow justice and the rule of law to prevail. And, they do so overtly and arrogantly because they believe DOJ Officers have an allegiance to the legal industry rather than the Constitution they took an oath to protect against domestic enemies. In the eight years we have been in litigation, no judge, clerk, attorney or DOJ Officer has been able to address the enclosed Exhibits with specificity. Therefore, mental health professionals such as Dr. Vincent Vindice, Chief of Massachusetts General Hospital's Mental Health Unit (see

enclosed letter) can correctly state on the record that the judges' rulings in state court, the USDC, US Court of Appeals and the Judicial Misconduct Committee are "based on a personal or political agenda rather than the facts presented to them." And, "the professional malfeasance of judges" has usurped the judicial process and is hurting the undersigned and every coalition member. And, after an investigation in conjunction with the EPA Massachusetts Inspector General Gregory Sullivan (letter enclosed) identified the pipe from our street to the state canal as causing the floods. Senator Ted Kennedy (letter enclosed) reviewed the Exhibits and concluded the FBI had failed to address or exercise jurisdictional authority over the false docket entries and altered transcript.

For this reason, would you please be so kind as to review the enclosed Exhibits and acknowledge that the USPS signed Return Receipts in Exhibit 1 of the Addendum prove on their face the Malden defendants were properly served and Docket Items #7 & 9 are false entries. And, Exhibit 4 of the Addendum on its face also proves the docket has false entries. And, please be so kind as to acknowledge that eyewitness affidavits (Ex. 2) clearly document sections that are now missing, and that the transcript has contextual "jumps" as on Pg. 13 Ln. 19 (See Exhibit 3). The transcript is unsigned and unauthenticated despite requests (email in Ex. 3) to the reporter to sign it and replace the missing sections.

Please acknowledge that the Complaint reveals that most of the perpetrators have admitted their guilt. For example, Exhibit A's Respondents had three legal opportunities to supply the notary public any evidence to counter the Affidavit's truthful statements, which detail their crimes – and the Affidavit's third Notice put them on civil and criminal notice. And, the Malden and state defendants did not submit an Answer to the civil rights Complaint and "admitted guilt" pursuant to Rule 8(d), Fed. Rules of Civil Procedure.

Therefore, considering the gravity of this sedition and treason, it is appropriate to request that you present our case to President Obama – as the head of the DOJ - to coordinate military support for any Marshals that may still be loyal to the Constitution and arrest the defendants, judges, court personnel and attorneys that illegally altered court records, stole Court Exhibits and suppressed evidence under color of law in state court and the U.S. Courthouse/Boston to usurp the judicial process, protect the crimes of a commercial development racketeering scheme in open defiance of President Obama and Attorney General Holder's pledge to return to the Constitution and rule of law.

These involved judges purchased their judicial appointments through political graft and campaign contributions never intending to keep their oath to the Constitution. They have corrupted the supervising Marshals but the deputies to whom we spoke definitely resent taking orders from judges that "think they are Gods." Acting Chief Taylor and Deputy Hodgkins are knowingly aiding judges usurp the judicial process by allowing them to remove the presentation of material evidence from transcripts (Exhibits 2 & 3) that counter the judge's rulings in violation of their oath to the Constitution and Marshals Service mandate to protect the integrity of the judicial process.

The judges in the Courthouse are so confident that U.S. Marshals and other DOJ Officers

will aid and abet their sedition and treason that eyewitness affidavits (Exhibit 2 of Addendum) confirm that Judge Rya Zobel boasted from the bench that judges can “illegally alter transcripts, participate in criminal conspiracies with defendants under color of law, act without jurisdiction and violate their oaths of office.”

U.S. Marshals stationed in U.S. Courthouses are unlawfully ordered by corrupt judges to forbid honest citizens from recording their hearings in a publicly funded court, presided over by public officials who have “no expectation of privacy” in open defiance of President Obama’s pledge to bring transparency to government.

The undersigned is a recognized pioneer in forensic audio/visual and computer engineering whose credentials as an expert witness have been accepted in Massachusetts and Pennsylvania Courts and U.S. district Court, who attests that the audio/visual industry clearly recognizes that the most advanced method of “protecting the judicial process” in courts is to video record the hearings on DVD’s with burned in time-code. The linear time-code numbers prevent any editing out, or removal, of the presentation of material evidence from the recording, as it would result in a “jump” in the time-code numbers. Recording onto DVD will protect the integrity of the judicial process and eliminate all allegations that the Marshals Service is part of criminal enterprises that operate in U.S. Courthouses as this case demonstrates.

When the undersigned spoke with Deputy Hodgkins, she used every lame excuse arguing against adopting the most advanced method of protecting the judicial process in courts – or allowing citizens to record in their own courts. The agenda of illegally altering transcripts to “control the court record of what occurred in the hearing” remains in the hands of reporters that work for judges that overtly boast from the bench that they have immunity to alter transcripts and dockets when they ‘have their robes on.’ The Marshals Service’s willing participation in this treason encourages judges to openly boast they are above the law. Their boasts and overt destruction of government records usurps the judicial process and reflects directly on the authority and integrity of the Marshals Service, the DOJ, Attorney General Holder and President Obama. This is why we need President Obama to employ military intervention.

Under what authority does the Marshals Service accept salaries and its budget when Marshals knowingly prevent citizens from recording hearings to allow judges/clerks to alter transcripts and violate citizens’ First Amendment right to a true and accurate record with which they can petition government from redress of grievances?

Sincerely,

Zed McLarnon

Attention: Mr. Zed McLarnon, Coordinator**

**Dear Mr. McLarnon,**

The documents and CD you mailed to me have been provided to the Chief Judge of this court.

United States Marshals Service (USMS) Headquarters has determined that the USMS does not have jurisdiction over this matter.

Please direct future mailings to the proper authorities. The USMS should not be included in any future mailings.

Thank you for your understanding regarding this matter.

This letter was written after we presented packages to both Acting Chief U.S. Marshal David Taylor. He referred us to Deputy U.S. Marshal Alison Hodgkins. Both understood that we had already petitioned Chief Judge Wolf as he AND THE U.S. Marshals have jurisdiction over crimes in the U.S. Courthouse. Dep. Marshal Hodgkins knowingly lies about the Marshals Service's jurisdiction over crimes in the US Courthouse. The Marshals Service knowingly prevents citizens from taping hearings in a publicly funded building, which allows judges and clerks to illegally alter transcripts to deny justice and overthrow the Constitution by ending civil redress.

Sincerely,

A handwritten signature in black ink, appearing to read "Alison Hodgkins", written over a horizontal line.
